FRANCISCO I. MADERO IS HEARD FROM ON THE PEACE QUESTION.

Request Made to Waive Warrant For Arrest—Trains Started.

EXTRA SESSION OF CONGRESS

Roll Call in the Two Branches Will Show Some Radical Changes from Last Session—Rules Will Be Changed.

Washington, April 4.—The interesting situation of a Democratic house and a Republican senate meeting to consider a Taft administrative measure directs unusual attention to the convening of the Sixty-second congress in extraordinary session today.

The political complexion of the two branches of congress will be as follows:

House—Democrats, 228; Republicans, 160; Socialist, 1; vacancies, 2, the Ninth Iowa and Second Pennsylvania districts.

Senate—Republicans, 59; Democrats, 41; vacancy, 1, from Colorado.

The roll calls in the two branches will show some remarkable changes from the last session. In the house the Democrats will show a gain of fifty-four members and the Republicans a loss of fifty-five, the Socialist member, Victor Berger of Milwaukee, accounting for the difference. By reasons of the change resulting

FOE TO "BLIND TIGERS" ARRESTED FOR SELLING LIQUOR TO VOTERS

Arrest Ohio Fox of "Blind Tigers." Xenia, O., April 4.—Prosecuting Attorney Frank L. Johnson, who is at the head of a movement to stamp out "blind tigers" in this city, was arrested on three charges of furnishing intoxicants to voters on or about May 3 last, preceding the primary election at which he was nominated.

PATROLMAN SHOT IN STREET RIOT WHEN FACTORY CLASH

Chicago, April 14.—Patrolman J. J. McGuire of the central detail station was shot in the forehead and possibly fatally wounded in a riot at the corner of West Madison and Market streets. Some twenty shots were fired between members of warring labor factions who met at the new Hearst building and indulged in a pitched battle. About sixty men in all were engaged in the riot.

The combatants are said by the police to have been members of the International Protective Association of Steamfitters and the United Association of Steamfitters, trouble between whom was responsible for the recent building strike.

CARD OF THANKS.

I wish to express my heartfelt thanks for the loving kindness and sympathy of the many friends, also the beautiful flowers and assistance rendered during the sickness and death of my beloved husband.

AWAIT PEACE CONFERENCE

REPUBLICANS DOMINATE IN SENATE—PECULIAR POLITICAL SITUATION.

Considerable Attention Directed to Extra Session on Account of Division.

SHOULD NEGOTIATIONS FAIL

Diaz Will Then Place 3,000 Rurales in Field to Make Short Work of Insurrectos and Marauding Bands.

El Paso, Tex., April 4. — Francisco I. Madero, head of the Mexican insurrectos, has not been heard from on the peace question. The visit of his father and brother to El Paso is for a conference with him if it can be arranged.

The United States department of justice is to be asked to waive the warrant which it has for the arrest of Madero on a charge of fomenting a revolution against Mexico on American soil. If this can be done Madero could then come here for a meeting with his family and with representatives of the Mexican government.

Meantime a request would be made upon the Mexican government to guarantee the protection of the provisional president enroute through Chihuahua to El Paso and return to his troops. Such a guarantee, it is said, could be secured by certain Americans of El Paso who are close to officials in Chihuahua and Mexico City.

If the peace negotiations fail, it is said Diaz has made arrangements to put 3,000 rurales in the field, highly paid men, selected from mountaineers and as an El Pasoan expresses it, "these rurales will ride out and they will just bury the insurrectos wherever they find one."

The first passenger train out of Ciudad Juarez for Casas Grandes for over a month, left bearing a few passengers, a carload of delayed mail and a carload of express.

A passenger train arrived bringing General Samuel Gracia Cuellar minus an arm, but wearing the shoulder straps of a general as a result of the battle of Casas Grandes. The general had 200 soldiers and a machine gun with him.

Twenty-three men were arrested a few miles east of El Paso attempting to cross into Mexico to join the insurrectos. One of the men gave the name of Jean Humbolt and declared he was the correspondent of the Journal De Paris. All will have a hearing Wednesday before United States Commissioner Oliver.

Federal District Judge T. S. Maxey, on opening court charged the grand jury to make rigid investigation into violation of the neutrality law.

GOLD SEEKERS MAKE RUSH FOR ONTARIO MINES

Porcupine City, Ont., April 4.—New gold discoveries have been made north of the line of the National Transcontinental railway just north of the township of Marathon. Hundreds of miners are flocking there from Porcupine.

When prospectors returning from Marathon a few days ago told of their finds of gold and silver a procession of toboggans started over the half broken trails. The rush thus far is confined to the most venturesome, trained prospectors not caring to take chances at this season with insufficient supplies.

STRONG SERMON DELIVERED BY REV. MARSHALL H. PETTIT

Rev. Marshall H. Pettit at the First Baptist church Sunday morning preached from the text, "He brought us out" * * * that He might bring us in," Deut. 6:23. He said in part:

"These words are from one of the last addresses of Moses. In this he exhorts the Israelites to teach their children the commandments of the Lord and also His dealings with His people, the thing specified being His bringing them out of Egypt that He might bring them into the promised land.

"He brought us out" of the bondage of Egypt. For over 400 years Israel had been oppressed by the Egyptian government, compelled to render hard and unrequited service. God led them out by the hand of Moses and gave them complete deliverance.

"He also led them out of the life of Egypt. He did not deliver them and leave them in the old environment. He led them into new relations and conditions.

"Now Egypt stands for the world or the self-life. That is where we are all living, by nature, in bondage.

"The Red Sea stands for conversion. Crossing the Red Sea meant that Israel had turned their backs on the old life. So conversion means that we have turned away from our sin and have turned our backs on the old, selfish life. We have come into a new life, a new environment.

"He brought us out" * * * that He might bring us in. After leaving Egypt Israel entered the wilderness where they wandered for 40 years. But God did not propose to have them thus wander. The journey across the wilderness only took eleven days. God purposed to bring them at once into the promised land but they would not.

"Now, the promised land stands for the Spirit-filled life. And God's purpose for His spirited children is not to leave them in the barren wilderness of a merely nominal and superficial Christian life, but to bring them at once into the full blessedness of life in Christ. I am come that they might have life, and that they might have it more abundantly."

"That promised land of Spirit-filled life, like the promised land of Canaan is a land of separation. As Israel was cut off from the other nations and was not to affiliate with them, so believers are to 'Come out from among them and be ye separate, saith the Lord and touch no unclean thing.' 'Be not conformed to this world but be ye transformed by the renewing of your mind, that ye may prove what is that good and acceptable and perfect will of God.'

"It is also a land of plenty. The land of Palestine is very fruitful and when Israel entered they found an abundance of food so that the manna ceased. So the Spirit-filled life is the place for soul-satisfying food. Here only can the heart find that peace that passeth all understanding, that fullness of joy that overflows the soul, and that insight into truth that illumines and satisfies.

"It is also a land of victory. Israel went in and drove out the enemy and her victory was continuous and complete as long as she followed God's leadership. So the belief finds in the fullness of the Spirit's blessing, continuous victory over sin, and sorrow, and suffering and all the ills of life.

"It is also a land of habitation. Israel was not to go in and out, but was to abide in that land. So the believer should abide in the Spirit-filled life. He should dwell there continually. That life should not be intermittent, occasional, but permanent, continuous.

"Let us note, then, that it is God's purpose to bring us into the fullness of spiritual life as well as to bring us out of the bondage and life of sin. When He starts man on the new life of Christ, He wants him to enter into the fullness thereof.

"Again we note that man is responsible for failing to attain that life. God has done all He can for us until we meet the conditions,—submission, trust, obedience,—which put us in the place where He can do more for us.

"And lastly we note that, as Israel was to teach these things to her children, so we should bear constant testimony as to what the Lord has done and is doing for us. Indeed if we enter this promised land of the Spirit-filled life and abide there, our lives will be a continual and blessed witness to our loving Lord."

JUDGE KINNE AGAIN ON CIRCUIT COURT BENCH

CITIZENS WANT CONCIL TO STAY ACTION ON GAS

"What is the use of being in a hurry," said one man today in discussing the gas proposition. "The plant is here," he said, "and if we should wait until the present franchise has expired, even, three years, we wouldn't be without gas. I am not worried by any fear that a plant like that would be closed up or the city left in darkness for want of gas if nothing at all were done. I think it would be a good thing to have the gas supply afforded the city on conditions that would warrant good service as well as good prices."

There seem to be numerous other similar opinions, according to communications and questions coming to the Daily Press office and many citizens with the welfare of the city at heart have expressed their hope that the council this evening will do nothing about the proposed franchise further than to hold it for further consideration.

A SUCCESSFUL SOCIAL

The band social which the Stony Creek Ladies' Aid society held last evening in the grange hall was the largest and most successful function which has ever been given under their auspices. The most important contributing cause was the Augusta corner band. They gave selections of many different kinds and delighted everybody. There were nearly 200 people present, and the proceeds came to \$26.25. These will be divided between the aid society and the band; the latter will use their portion in the purchase of uniforms. It is very likely the ladies will invite the band to assist them in the summer with an ice-cream social.

INTERESTING LECTURE

Prof. J. C. Shedd of Olivet College preached at the Congregational church Sunday morning on "The Christ of Experience." He treated of this question: If one followed the ordinary canons of scientific investigation as to the life of Christ, what would one find? He showed that there were several Christs: that of history, that of dogma, that of experience. It is the last with which people enter into personal communion and to which they seek to adjust their lives.

In the evening Prof. Shedd gave a stereoscopic lecture on Persia. He spent his boyhood in that country, coming back to America when 17 and remaining here, though some of his family are still in Persia. He showed the place where he was born, and to many of the pictures showing customs and buildings, he added the interesting personal touch.

THANKS TO VOTERS.

I wish to thank the voters of Superior township for the support given me in the recent election.

LOCAL ELECTION HAS FEW FEATURES WARM BUT FRIENDLY STRIFE PREVAILS AT CITY POLLS

FIVE REPUBLICANS AND ONE DEMOCRAT FOR COUNCIL

LOCAL OPTION RESULTS OVER STATE FAVOR SALOON INTERESTS—SEVERAL COUNTIES ARE AGAIN LICENSED

A comparatively good vote was polled in the city and county Monday and although in several instances the strife was warm and the outcome close, it was all friendly and in general the public choice seems to have been one that will warrant public satisfaction in the city and county.

Principal interest centered in the choice of Circuit Court Judge. Before the polls closed there was little preference, both candidates having many enthusiastic supporters. Judge Kinne was re-elected however and when the votes were all in his majority was reported 735.

Over the state there were a number of interesting scenes. Hot mayor fights were on in several cities and the local option question was worked pro and con with a vengeance in a number of counties.

Following are some of the Michigan mayors elected:

Ann Arbor—Wm. Walz, D, re-elected.
Adrian—F. M. Joslin, R.
St. Clair—Frank Moore, Jr., R.
Lapeer—Dr. F. A. Tinker, D.
Bay City—Dr. Roy O. Woodruff, R.
Owosso—Otto L. Sprague, R.
Ludington—Jos. Zeiff, D.
Bessemer—Dr. Pinkerton, Ind.
Coldwater—Chas. A. Conover, R.
Batté Creek—Dr. Thos. Zelinsky, R.
Allegan—Clarence W. Young, re-elected.

Flint—John A. C. Menton, socialist. (in doubt).
Tawas City—Callie Johnson, citizens.

Pontiac—Robt. J. Lounsbury, Ind.
Big Rapids—Harry J. Drescher, R.
Hillsdale—A. L. Lincoln, D.
Port Huron—Frank Moore, R.

The more populous counties of Michigan in the local option fight in 18 counties yesterday showed decided license proclivities.

While the anti-saloon forces succeeded in outlawing the 44 licensed bars in the counties of Montcalm and Isoco, the liquor forces more than overcame these gains by carrying the

county of Genesee with the poulous city of Flint, which had 55 bars when the saloon was outlawed two years ago. Calhoun county, which had 87 bars two years ago, and Jackson, which had 109 saloons. While it is not likely that the bars in these three counties will return in any such numerical force as this, it is certain that about 100 will be resurrected as a result of the election yesterday, as against 44 outlawed, a two to one license victory.

For License.

Heads of the Appropriations Committees In the New Congress

In the senate, where the Republicans have a majority, Senator Francis Emory Warren of Wyoming was chosen to head the important committee on appropriations. Representative John Joseph Fitzgerald of New York was the choice of the Democratic majority in the house for chairman of that body's similar committee. There was some opposition to Fitzgerald at first, but it was quickly dissolved. He is extremely popular with his associates.

from the election last November, new faces will be seen not only in the membership of the house, but in the whole organization. Republican employees in great numbers will go out and Democrats will fill their place. Choice rooms in the capitol and in the house office building, long controlled by the Republicans, will be surrendered to the representatives of the party which is to gather up the house reins.

Instead of the fifty-nine Republicans who occupied seats in the senate on March 4 there will be only fifty today. The ranks of the minority will be increased from thirty-two to forty-one and to forty-two when the vacancy in Colorado is filled. There was one vacancy in the last session caused by the death of the late Senator Hughes of Colorado.

More notable even than the large number of new faces in the senate and the house will be the absence of so many veteran legislators. The speaker's marble rostrum will not re-

sound with vigorous whacks of the Cannon gavel, for Mr. Cannon will appear in the ranks of the minority. Veterans of many legislative struggles will be missed from the house floor.

PRESIDENT'S MESSAGE BRIEF

Not a Line of It Had Been Written This Morning.

Washington, April 4. — President Taft this morning had not written a line on his message to congress, which assembled in extra session today.

The message is to be exceedingly brief, dealing only with Canadian reciprocity and the president will write it today. It will be sent to congress Wednesday.

THE PRIVATE CITIZEN AND THE PUBLIC GOOD.

Public opinion is but the composite expression of private opinion. Public opinion then depends upon the expression by the private citizen of his opinion, and in accordance with the freest expression of private opinion will public opinion be healthy or otherwise. Ideas and ideals find themselves in a forum and have to fight for their existence and, if we would have things publicly as we privately wish them, we must fight for them. We must contribute our ideas so that the resultant average may be as high as possible. And the private citizen must ever remember that, if he unselfishly desires for the common welfare of all a condition which does not exist, there is greater reason for his insisting on expressing himself than would be the case if it were not usually true that there is a selfish reason why others desire the opposite of what you desire.

That which we desire locally for the common good may permit us to express ourselves publicly on the street or in the auditorium; but outside the local community, we need to use the United States mails. Every good cause needs a referendum, in which the people may express themselves. Our congressmen are more and more deluged with letters. This is a mighty good sign, provided these letters come as the unselfish expressions of private opinion for the public welfare.

But the private citizen in these days needs to be on the alert lest he be uncoined. Selfish interests are always ready to furnish funds and facts of their own making to their own liking for their own purposes, in order to persuade the private citizen to lend his private support to something which will be of selfish benefit to the promoters behind the scenes. In the parcels post controversy for example, we are disposed to believe that the smaller merchant in the smaller towns is being uncoined by a bunch of local steers, with funds probably furnished by the express companies, while the strange fact seems now to be true that the much-dreaded department stores are fighting the parcels post, because they have organized their business on the basis of sending out great illustrated catalogues and getting two or three or more neighbors to join together to buy enough stock so that they can send it by freight, at a large reduction over what it would cost them to send it by the parcels post or by express.

But the duty comes home to every one of us every day and may be summed up in the text, "Choose ye this day whom ye will serve." Or of course we can substitute "whom ye will support," and what ye will support. For, just in proportion as you support the man, the publication, the corporation, the trust, the fellow that really is against the common welfare, whether he be the individual who won't take a stand for anything that you feel he ought to take a stand for, whether he shrugs his shoulders, winks the other eye, sidesteps, dodges the issue, profits by friendliness with the enemies of what you stand for, whether you support him, individually or collectively in the form of a company, or corporation or trust or what-not, you are choosing this day whom you will serve or support. And by doing so, you are supporting the very things you are opposed to.

The only practical way to support a proposition is to do it in an effective way, by supporting those who stand for it, supporting them wherever possible in a material way, because if you rob them of the funds by which they maintain themselves and maintain a stand for the things for which you stand, you rob the very cause for which you stand, of the sinews with which it must needs be supplied if it is to survive the attack of selfishness.

The private citizen can in no less expressive or more efficient way contribute to the establishment and maintenance of higher ideals than by writing frequently to the publishers of the periodicals which furnish him with his current literature and telling them frankly what he approves in his efforts to succeed and what he disapproves. He can clean up their advertising col-

umns in this way and make them comport consistently with their editorial utterances. The publisher of the daily or weekly newspaper or the magazine is dependent for his success upon the extent of his advertising, and his advertising is dependent upon his circulation. It is then in the hands of the private citizen, the subscriber, to say whether or not he will patronize the publisher if he continues to lower his advertising ideals below his editorial ideals. The publisher invites these expressions, and they should go forward whether invited or not.

We trust our readers will read in the March Hampton's magazine the initial article, entitled "Will the Magazine Press Remain Free?" They will there get a clearer insight into what the magazine publisher, and the newspaper publisher as well, if he stands for anything, has to contend with in making both ends meet while he continues to contend for the things which he feels ought to obtain.

Hampton's has waged warfare fearlessly against the water power trust, the sugar trust, the Guggenheim Smelting trust, the exploitation of the people by the railroad in the west and their representatives in legislative halls and consequently has made enemies among the big 'interests' profiting by a continuance of the things which Hampton's and a few other magazines have been exposing. The interests, it alleges, attempted to cripple it by attempting to persuade its advertisers to cut out their patronage and by attempting to influence its stockholders to remove its manager and proprietor and in other subtle and sinister ways to knife it.

Other magazines and newspapers have had to contend with the same treatment. The fight is essentially one for a free press and a free speech, and the private citizen ought to use his pen and his paper and his postage and support it, whether the fight is being waged by his magazine publisher, or his newspaper publisher, (and we disclaim any personal petition here), or his baker, his blacksmith, his grocer, his political representative, or the fellow of whatever occupation or calling.

"Choose ye this day whom ye will serve" and support, and, having made your selection, let your support promptly follow and continue. And to continue it effectively, let it be discriminating.

Mack & Co.'s 55th Easter Sale

This store is in complete preparedness to take care of your Easter needs. Easter time is "dress-up" time and those who have waited until now and have only a little over a week to make final selections will find that Mack & Co. have anticipated your requirements and put in a bountiful supply of correct wearing apparel and accessories. We inaugurate this 55th Easter Sale with a multitude of special values and lowered prices that will enable you to make your money go even farther than you planned.

Easter Millinery The Shape That You Should Have Is Here

With such a host of new hats from which to choose, any woman can get just the hat most becoming to her.

In no recent season have the Paris milliners evolved so many "wearable" hats—and there is no type of beauty or plainness that has been forgotten. There is, indeed, a proper hat for every woman.

The notable feature of all Mack & Co. millinery displays is the beauty and good sense of the styles, individually and collectively.

You'll be delighted with our Easter Millinery and can be assured of finding here the hat that's just right for you.

Watch This Page Tomorrow For Easter Sale Specials in Linens, Cottons, Dress Goods, Furniture, Rugs Carpets, Draperies, Etc.

Mack's Millinery Is Individual

Nobody likes to see "her" hat (a duplicate of the one she has on) on another woman. One doesn't buy a hat every day, and after having made painstaking selection and taking into account its appropriateness for wear with the rest of one's outdoor wardrobe, it's suitability to the wearer's style of face, and other points that go to crystallize decision, after doing all this one wants her hat to be hers, and not seen promiscuously everywhere.

That's the Mack idea, no styles many times repeated. It would be cheaper, for us, because the cost of making is lessened.

But the Mack way is different, our designers avoid "dittoes" in hats and strive for differentness. Each style is a separate study and each hat gets its own individuality.

Let us plan your Easter hat.

How Clouds Are Colored.
The color of a cloud depends on the manner in which the sunlight falls upon it and the position of the observer. It will be noticed that high clouds are always white, or light in color, and this is because the light by which they are seen is reflected from the under surface by the numberless drops of moisture which go to form the cloud.
Heavy rain clouds, on the other hand, are found much nearer the earth, and so the light falls on them more directly from above, giving a silver lining to the cloud, though the under surface appears black, owing to the complete reflection and absorption of the light by the upper layers. Seen from above by an observer in a balloon the blackest rain clouds appear of the most dazzling brilliant white.

NO REASON FOR IT.

When Ypsilanti Citizens Show the Certain Way Out.

There can be no just reason why any reader of this will continue to suffer the tortures of an aching back, the annoyance of urinary disorders, the dangers of diabetes of any kidney ills when relief is so near at hand and the most positive proof given that they can be cured. Read what an Ypsilanti citizen says:

Charles Fletcher, 415 W. Congress St., Ypsilanti, Mich., says: "As the result of kidney trouble, my health became much run down. I was bothered a great deal by pains in the small of my back and kidney's and I attributed my complaint to constant riding on the wagon. When I was on my feet I did not notice the trouble so much. The kidney secretions were too frequent in passage and highly colored. Reading about Doan's Kidney Pills I was led to procure a box at Weinmann-Matthews Co.'s Drug Store and begin their use. I was careful to follow the directions closely and I received relief in a short time. Since then I have been in the best of health."

For sale by all dealers. Price 50c. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

INDIGESTION

Cured or Money Back.

Don't worry a minute longer; it's easy to get rid of indigestion nowadays. So if you have gastritis, catarrh of the stomach or simply fermentation of food, cheer up; for Duane Spalsbury has a prescription called MI-O-NA that turns old stomachs into sweet ones in a few days or money back.

There's happy days ahead for you and for your poor flabby, tired out stomach if you won't be obstinate. Just lay down 50 cents and say "I want a box of MI-O-NA tablets." They are made from the formula of the most successful prescription for indigestion, catarrh of the stomach and all stomach distress ever known.

Take one or two tablets with or after meals for a few days and then if you don't agree with us that MI-O-NA is a marvelous prescription you can have your money back. We'll leave it to your good sense of fairness whether that's a square deal or not.

MI-O-NA stomach tablets promptly relieve belching, heaviness, pain in stomach, heartburn, sour stomach, foul breath, coated tongue, dizziness, nervousness, sick headache and sleeplessness. MI-O-NA is sold by Duane Spalsbury and leading druggists everywhere.

Sanitary Plumbing is the First Requisite to a Healthy Home

It does not matter who your plumber may be, if the work he does for you is not sanitary, it is worthless—it isn't worthy. If you let Waterman do your work, you need not worry that it will not be done properly. Only Sanitary and Satisfactory Plumbing is done by my men. Every one is thoroughly experienced in every phase of plumbing, and gives you the very best service possible.

My Prices Are Always the Lowest

Many people consider plumbers' charges excessive—such is the case with many plumbers—but not with me. I do the very highest class of work, and charge less for it than most plumbers ask for inferior work. Let me prove it to you—phone me when you need attention, and a man will be on the job immediately. And I will guarantee all work done by my men.

Which is the STIFF STAY Fence?

This picture shows why Jackson Stay Fence is the best. The Stay wires are made from the same gauge (size) hard steel wire as the laterals. The Jackson knot is made from the same material and holds both in a grip that never loosens. The whole fence is stiff and strong, and being made with mechanical accuracy it always "sets right." Goes up or down hill as smoothly as on the level. No uneven line wires.
